## 1. Qualitative Information Concerning Quarterly Financial Statements and Other Matters

### (1) Explanation Regarding Consolidated Operating Results

During the first half of fiscal 2017, the period under review, the Japanese economy continued to stagnate, due to sluggish personal consumption and other factors. Meanwhile, although the U.S. and European economy held firm, the global economy continued to decelerate as a whole. This was primarily due to slowing economic growth in China and economic recession in South America, along with the financial market confusion in the run-up to the Brexit referendum and risks in the Middle East.

In the Japanese auto industry, production volume decreased year on year mainly due to the impact of lackluster sales of mini vehicles. Overseas, production volume increased in the U.S., Western Europe, China, India and elsewhere. As a result, global automobile production volume as a whole increased year on year.

In this climate, the KOITO Group reported consolidated net sales at end of the first half of ¥383.7 billion, up 0.1% year on year. The increase was due to sales growth in the mainstay automotive lighting equipment segment, which was driven by an increase in new orders and a shift in automobile lamps to LED. However, the increase was marginal due to the impact of yen's appreciation.

Results by geographical segment are outlined as follows.

#### **[Japan]**

Sales in Japan increased 7.8% year on year to ¥147.7 billion. The increase was mainly attributable to an increase in new orders and a shift in automobile lamps to LED that more than offset the decrease in the domestic production volume of automobiles.

#### **[North America]**

Sales in North America decreased 1.2% year on year to ¥86.3 billion. The decrease was due to the impact of the appreciation of yen, despite an increase in sales on a currency basis, led by expanded production volume and newly gained orders accompanied by growing demand for automobiles, and a shift in automobile lamps to LED.

#### **[China]**

Sales in China decreased 5.3% year on year to ¥97.6 billion. This was due to the impact of yen's appreciation, more than offsetting the expanded production volume of automobile lamps, driven by an increase in automobile production volume and newly gained orders.

#### **[Asia]**

Sales in Asia decreased 3.9% year on year to ¥36.8 billion. The decrease was due to the effect of yen's appreciation, despite an increase in sales on a currency basis for respective region, led by an increase in new orders in Thailand and Indonesia, and a shift in motorcycle lamps to LED amid an overall recovery in automobile production in the ASEAN region.

#### **[Europe]**

Sales in Europe decreased 13.0% year on year to ¥15.0 billion. This was due to the impact of yen's appreciation, despite an increase in sales on a currency basis for the region, more than offsetting an increase in new orders and a shift in automobile lamps to LED, amid a robust trend in automobile production in the region.

On the earnings front, operating income was ¥39.7 billion, up 22.7% and recurring profit was ¥39.6 billion, up 20.6% year on year. The increase was mainly attributable to an increase in orders and rationalization effect in Japan and overseas. Profit attributable to owners of parent increased 61.8% year on year to ¥22.9 billion, since consolidated subsidiary KI HOLDINGS CO., LTD. recorded a loss on compensation for damages related to aircraft seats in the previous fiscal year.

### (2) Explanation Regarding Consolidated Financial Position

-1. Analysis of assets, liabilities and net assets

Total assets as of September 30, 2016 decreased ¥18.6 billion to ¥570.0 billion. This was mainly due to a decrease in current assets such as trade notes and accounts receivable as well as the effect of exchange rate conversion.

Total liabilities as of September 30, 2016 decreased ¥18.5 billion to ¥240.4 billion mainly due to a decrease in trade notes and accounts payable, and short-term loans.

Net assets as of September 30, 2016 were ¥329.6 billion, almost as same as the end of the previous fiscal year. This was mainly due to a decrease in translation adjustments, despite an increase in retained earnings.

-2. Analysis of cash flows

Operating activities provided net cash of ¥42.3 billion after payment of taxes, mainly reflecting income before income taxes of ¥38.5 billion and depreciation of ¥14.4 billion.

Investing activities used net cash of ¥25.9 billion, mainly reflecting acquisition of property and equipment of ¥16.2 billion.

Financing activities used net cash of ¥11.8 billion, the result mainly of reflecting repayment of debt of ¥4.6 billion and dividends paid of ¥7.1 billion.

As a result, cash and cash equivalents as of September 30, 2016 were ¥33.9 billion, ¥2.0 billion higher than on March 31, 2016.

**(3) Explanation Regarding Forecast of Consolidated Results for Fiscal 2017 and Other Future Projections**

As regards KOITO's business forecasts for fiscal 2017, the fiscal year ending March 31, 2017, net sales are expected to increase in Japan due to the expansion of new orders and the market transition to LED automobile lamps despite the decrease in automobile production volume. For overseas business, while new orders are expected to grow mainly in North America and China, and shift in automobile lamps to LED, net sales are expected to fall from the previous fiscal year due to the effect of yen's appreciation. As a result, the consolidated net sales are expected to decrease year on year.

On the earnings front, although sales increase in Japan, operating income and recurring profit are likely expected to decrease compared to the previous fiscal year due to the exchange rate conversion in overseas. However, profit attributable to owners of parent is expected to rise. This is due to the rebound from a loss on the settlement of damages related to aircraft seats at consolidated subsidiary KI HOLDINGS CO., LTD. that recorded in the previous fiscal year.

For the first half of fiscal 2017, the fiscal year under review, KOITO paid a dividend of ¥20 per share, which is ¥4 higher than the dividend amount for the same period of the previous fiscal year, and the same with the year-end dividend amount of the previous fiscal year. The year-end dividend for fiscal 2017 has not yet been decided as the outlook for the business climate remains uncertain. The Company plans to announce the year-end dividend projection at a later date based on business performance trends.

Looking ahead, KOITO will continue efforts to achieve even higher earnings to meet the expectations of all shareholders.

The previously announced full-year business forecasts (both consolidated and non-consolidated) for fiscal 2017 announced in the Consolidated Earnings Report for the First Quarter of Fiscal 2017 on July 28, 2016, have been revised in the following manner.

(3) Changes in Accounting Principles, Accounting Estimates and Restatements:

Change in Accounting Principles

(Application of the Practical Solution on Accounting for Changes in Depreciation Method related to the 2016 Tax Law Changes)

In accordance with the amendment in the Corporation Tax Act, a part of domestic consolidated subsidiaries have adopted the “Practical Solution on Accounting for Changes in Depreciation Method related to the 2016 Tax Law Changes” (Practical Issue Task Force (PITF) No. 32, issued on June 17, 2016) in the first quarter of fiscal year ending March 31, 2017, and have changed the depreciation method for structures and attachment to buildings acquired on or after April 1, 2016 from the declining-balance method to the straight-line method.

This change in accounting policy had no effect on the consolidated financial statements for the first half of the fiscal year ending March 31, 2017.
