Effects of the Great East Japan Earthquake and Support toward the Relief and Recovery Effort

We sincerely sympathizes with those affected by the Great East Japan Earthquake of March 11, 2011.

The effects of the earthquake on the Koito Group and our support for relief are as follows.

1. Damage

There is no damage to our employees and no damage to equipment of the Group companies that will hinder production.

2. Effects on business

We are currently studying the effects of the earthquake on our consolidated business results, and if the effects appear to be serious, we will announce them without delay.

3. Support toward the relief and recovery effort

We have decided to donate 30 million yen toward the relief and recovery effort.

We pray from the heart for a rapid recovery of the affected areas.
