KOITO’s policy is to continuously pay stable dividends to shareholders based on the comprehensive evaluation of our present business results, business climate, etc.

In view of the uncertain business climate, forecasts for the interim and year-end dividends had been remained to be determined. Based on a comprehensive evaluation of all factors and in line with the above policy, KOITO has decided to pay an interim dividend of ¥40 per share, which is ¥4 higher than the dividend amount for the same period of the previous fiscal year, and the same with the year-end ordinary dividend amount (excluding extraordinary dividend of ¥20) of the previous fiscal year.

The forecast for the year-end dividend this year has yet to be determined and will be announced when decided.
