1. Outline of Consolidated Results

(1) Outline of Consolidated Results in Fiscal 2019

During fiscal 2019, the period under review, the Japanese economy showed a trend of moderate expansion due to an increase in capital investment and robust personal consumption. Although the global economy experienced intensifying trade tensions between U.S. and China, Brexit issues in U.K., and geopolitical risks, it remained to be robust as a whole. This was due primarily to firm economies in the U.S. and Asia.

In the Japanese auto industry, the production volume remained flat for both domestic and export vehicles. Despite increased demand in ASEAN countries and India, the global automobile production volume decreased year on year. This was due mainly to the decreased production volume in China caused by the expired tax reduction on compact cars in the previous fiscal year, and production decrease in Europe.

In this climate, for the purpose of expanding earnings of automotive lighting equipment in the mid- and long- term perspective, KOITO Group has reinforced its overseas production capacity, strengthened development capability, and expanded marketing activities. In addition to KOITO's subsidiary in Brazil put into operation in May 2018, KOITO has expanded plants and put into operations in FUZHOU KOITO TAYIH AUTOMOTIVE LAMP., LTD. in November 2018, and PT. INDONESIA KOITO in March 2019.

KOITO Group's consolidated net sales decreased 2.7% year on year to \(\frac{4}{826.2}\) billion. This was attributable to a decrease in the automobile production volume and the status change of Shanghai Koito Automotive Lamp Co., Ltd. ("Shanghai Koito") from a consolidated company to a company accounted for by the equity-method in the end of September 2017, and its non-consolidation in the end of March 2018.

Results by geographical segment are outlined as follows:

[Japan]

While domestic automobile production remained flat, sales in Japan increased 5.5% year on year to ¥384.6 billion due to an increase in new orders and a shift in automobile lamps to LED.

[North America]

While automobile production in the region remained flat, sales in North America increased 7.2% year on year to \$200.3 billion due to an increase in new orders and a shift in automobile lamps to LED.

[China]

Despite the decrease in production volume, new orders expanded in China. However, sales in China decreased 40.6% year on year to ¥93.7 billion due to the effect of non-consolidation of Shanghai Koito.

[Asia]

Sales in Asia increased 10.2% year on year to ¥106.3 billion. Sales growth was mainly driven by an increase in automobile production volume and an increase in new orders in Thailand.

[Europe]

Sales in Europe decreased 10.3% year on year to ¥38.5 billion. This was mainly attributable to the decrease in automobile production volume and completion of current round of new vehicle stage effects or the end of production of some of our ordered products portfolio in this region.

[Other regions]

KOITO's subsidiary, NAL Brasil commenced operations in May 2018. Sales in the region was ¥2.5 billion.

On the earnings front, although KOITO implemented rationalization in Japan and overseas, operating income decreased 2.2% year on year to ¥101.5 billion, and recurring profit decreased 2.3% year on year to ¥105.4 billion. This was attributable to the effect of non-consolidation of Shanghai Koito and increased R&D expenses. As KOITO recorded extraordinary gain on sales of investment in Shanghai Koito's capital in the previous fiscal year, profit attributable to owners of parent decreased 12.6% year on year to ¥72.8 billion.

(2) Outline of Financial Position in Fiscal 2019

-1. Assets, liabilities and net assets

Total assets as of March 31, 2019 increased \(\xi\)66.1 billion to \(\xi\)738.1 billion. This was mainly due to an increase in current assets such as cash and time deposits, and assets on property, plant and equipment led by an increase in capital investment.

Despite the decrease in income taxes payable and long-term debt, total liabilities as of March 31, 2019 increased ¥7.3 billion to ¥234.6 billion. This was due primarily to an increase in short-term loans and account payable for capital investment

Net assets as of March 31, 2019 increased ¥58.7 billion to ¥503.5 billion. This increase was mainly due to an increase in retained earnings.

-2. Cash flows

Operating activities provided net cash of ¥96.6 billion after payment of taxes, mainly reflecting income before income taxes of ¥104.4 billion and depreciation of ¥32.0 billion.

Investing activities used net cash of ¥25.9 billion, mainly reflecting acquisition of property and equipment of ¥53.7 billion

Financing activities used net cash of ¥13.0 billion, the result mainly of reflecting dividends paid of ¥18.3 billion. As a result, cash and cash equivalents as of March 31, 2019 were ¥97.9 billion, ¥56.9 billion higher than on March 31, 2018.

(3) Forecasts for Fiscal 2020

As regards KOITO's business forecasts for fiscal 2020, the fiscal year ending March 31, 2020, the global automobile production volume is expected to remain flat. Although new orders and the market transition to LED automobile lamps are expected to expand, net sales are expected to decrease slightly due to the effect of the currency exchange.

On the earnings front, operating income, recurring profit, and profit attributable to owners of parent are all expected to decrease due mainly to the effect of currency exchange, an increase in R&D expenses and the increase in depreciation cost for strengthening of development capability.

(4) Basic Earnings Distribution Policies and Dividend Payments for Fiscal 2019 and Fiscal 2020

KOITO's policy is to continuously pay stable dividends to shareholders based on the comprehensive evaluation of our present business results, business climate, etc. In accordance with the policy, KOITO has decided to pay ¥52 of year-end dividend per share.

Accordingly, the full year dividend, including the interim dividend, is scheduled to be ¥92.

The full year dividend for fiscal 2020 is currently undecided because the future business climate remains unclear. Looking ahead, KOITO will continue efforts to achieve even higher earnings to meet the expectations of all shareholders.

(Changes in Presentation Method)

(Application of "Partial Amendments to Accounting Standard for Tax Effect Accounting," etc.)

KOITO has adopted the "Implementation Guidance on Tax Effect Accounting" (Accounting Standards Board of Japan (ASBJ) No. 28, issued on February 16, 2018) in the first quarter of fiscal year ending March 31, 2019, and have indicated deferred income tax assets under investments and other assets, and deferred income tax liabilities under non-current liabilities.

97,993

41,050

As a result, "deferred income tax assets" in "current assets" have decreased ¥5,466 million, "deferred income tax assets" in "investments and other assets" have increased ¥4,598 million, and "deferred income tax liabilities" in "non-current liabilities" have decreased ¥868 million.

"Deferred income tax assets" and "deferred income tax liabilities" of the same taxable entity were offset, resulting in a decrease of ¥868 million in total assets compared before the change.

(Segment Information)

1. Overview of Reporting Segments

The KOITO Group produces primarily automotive lighting equipment in Japan and overseas, and supplies products to countries around the world as a global supplier. Each local subsidiary is an independent business entity, and the Group does business by establishing a comprehensive plan for each region. The Company's six reporting segments are therefore geographical segments based on production and sales structures, comprising Japan, North America, China, Asia, Europe and Other regions.

Within each of these geographical segments are segments that produce and sell automotive lighting equipment, railroad car control equipment, aircraft components, and seats for railroad cars and aircraft.

2. Calculation for Net Sales, Segment Income or Loss, Assets, Liabilities and Others of Reporting Segments Accounting treatment for reporting segments are almost as same as notes listed on "Important Basic Matters for Preparation of Consolidated Financial Statements".

Income of reporting segments is based on operating income.

Inter-segment sales and transfers are based on general market prices.
